

2025 FERF

2nd Foreign Environmental Researcher's Fair

외국인 환경공학자 학술회

Date

Friday, June 27, 2025

Venue

KAIST Creative Learning Building
(E11) Room 301~302

Welcome to the 2nd Foreign Environmental Researcher's Fair! We are delighted to bring together global minds dedicated to advancing environmental science and engineering for sustainable society. The purpose of this event is 1) to promote academic exchanges among foreign students studying environmental engineering in Korea and 2) to help them seek employment in domestic companies. For that, we are planning to invite the company's HR manager to make a presentation on the type of talent the company is looking for. Please find the detailed information below. This event further celebrates any collaboration, innovation, and the vital role of international researchers in shaping a more resilient and sustainable future of our society. Again, thank you for your participation.

On behalf of the FERF Organizing Committee

Si-Kyung Cho, KSEE Executive Vice Chairman for Planning

Hyun-Woo Kim, KSEE Executive Chairman for Planning

Seok-Tae Kang, KSEE President
