Purpose

O Attend as a participant
O Attend as a presenter
☐ Oral presentation
☐ Poster presentation
Topic
Title of presentation

Registration Payment

Check or payment to a savings account or money order:

"Environmental Engineering Association of Thailand"

Bank Transfer: Savings Account No.

O 056-2-32298-0. Siam Commercial Bank Plc., Aree Sampan Branch (SWIFT Code: SICOTHBK)

Registration Fee

Presenter

Classification	Early bird before April 10, 2025	From April 10 to 18, 2025		
Thai				
O EEAT member	4,500 Baht	5,500 Baht		
O Non or expired member	5,500 Baht	6,500 Baht		
Foreigner				
O Non student	US\$ 300	US\$ 350		
O Student (Foreign countries)	US\$ 200	US\$ 250		

Thai and Foreigner Participants

Classification	Early bird before April 25, 2025	From April 25 to May 21, 2025
O EEAT member	4,500 Baht	6,000 Baht
O Non or expired member	5,500 Baht	7,000 Baht
O Student	3,000 Baht	4,000 Baht

Remark

- For Thai Students, one can apply for a 1-year EEAT member with member fee waiving. The registration fee will be charged as EEAT members.
- * Registration fee includes VAT 7% and abstract proceeding, coffee/tea break, lunch and welcome dinner.
- Registration fee is for one paper/presenter.
- Participants received permission from their own organizations can attend the conference without taking leave and have their rights to reimburse the registration fee and other expenses according to the governmental regulations.

International Conference on

Environmental Engineering, Science and Management

Green Environment Low Carbon Society Towards Sustainability for Mankind Wellness

May 20-21, 2025

Chon Buri, Thailand

Bangsaen Heritage Hotel

Rationale—

The environmental problems have been globally encountered, particularly the global warming episodes. Rapid industrialization and inappropriate agriculture as well as urbanization not only cause air pollution, water pollution, and improper solid waste management but also climate change. Additionally, disaster by flood and drought have been confronted in Thailand. One more challenge aspect regarding the environmental and health impacts, ones need to think of the solution by Green Environment and Low carbon Society.

Accordingly, Thailand shall put all efforts to make solutions for such mentioned environmental problems and challenge. Novel technology, innovation, and management approaches are required to recommend the appropriate practical solutions. Integration of engineering and scientific knowledge with other knowledge fields are very necessary to be meaningfully performed towards the Sustainability for the Mankind Wellness

The Environmental Engineering Association of Thailand (EEAT), founded in 1984, of which the main purpose is to serve as an environmental engineering and science professional center, providing academic information and technologies on environmental pollution protection and control as well as environmental management. As environmental subjects have been a national and worldwide concern, EEAT will be the platform for knowledge management of environmental concerns by organizing the annual National and International Conference on Environmental Engineering, Science and Management.

The main objective of the conference is to share and exchange knowledge among researchers, scientists, engineers, and other practitioners by presenting research work and practical work as well as the relevant case studies. This can be an advantage to not only solving national and local environmental problems, but also strengthening the network of environmental institutes, organizations, and other concerning agencies.

The 24th National and the 14th International Conferences will be jointly organized with Faculty of Engineering, Kasetsart University, Faculty of Public Health, Burapha University with support from the Ministry of Energy, Pollution Control Department, Department of Climate Change and Environment, Department of Local Administration, Office of Natural Resources and Environmental Policy and Planning, Thai Health Promotion Foundation and National Research Council of Thailand (NRCT). The conference will comprise keynote/invited speakers, oral and poster presentations.

Conference Topics—

- **▼** Business session
- **▼** Innovation for SDGs
- ➤ BCG (Bio-Circular-Green economy)
- ➤ Decarbonisation, net zero and climate adaptation
- ➤ Carbon capture and utilisation
- ➤ Disaster and risk management
- ➤ Urban development, GIS and remote sensing
- ➤ Smart city/Green city
- ➤ Eco industry/Industrial ecology
- ➤ Pollution prevention and clean technology
- ➤ Life cycle sustainability assessment
- ➤ Bioenergy, biogas and biochar
- ➤ Waste management, circular economy, zero waste and zero pollution
- **▼** Water and wastewater treatment
- ➤ Air pollution and noise management
- ➤ Air pollution and climate change
- ➤ Water resource and quality management
- ➤ Sensor, nanotechnology for environmental management
- ➤ Emerging pollutants in the environment
- ➤ Management and restoration of marine and coastal ecosystems
- ➤ Soil science and environment
- ➤ Environmental law, policy, and economics
- ➤ Environmental pollution and health
- **≍** Environmental health
- ➤ Occupational health and safety

Participants —

Academia, Researchers, Scientists, Engineers, Economists, Sociologists, Lecturers, Students, Entrepreneurs, Consultants, NGO, Officers, and other interested persons

Important Dates —

February 25, 2025	Abstract submission deadline	
March 21, 2025	Authors notified of acceptance	
April 10, 2025	Full paper submission deadline and early registration deadline	
May 20-21, 2025	Conference	

Call for Papers —

Authors are cordially invited to submit an extended abstract of 2 pages (on A4 or 21.0 cm x 29.7 cm paper) 2 columns. View more details at www.eeat.or.th.

Publications—

Selected papers that have been reviewed as "excellence" are qualified for peer-reviewed for potential publications in:

• Thai Environmental Engineering Journal (TEEJ), Environmental Engineering Association of Thailand, Thailand

Conference Secretariat

Environmental Engineering Association of Thailand (EEAT)

122/4 Soi Rawadee, Rama VI Road, Phayathai, Phayathai, Bangkok 10400, Thailand
